Welcome to 369 Bass Way in Kennesaw, a home that offers stylish updates in a desirable West Cobb location at a tremendous value! As you walk through the front door into the family room you'll be greeted by the soothing neutral color palette on the walls and floors and will also notice how the vaulted ceilings throughout the main level accentuate the open concept plan. This home is all about open sight lines, perfect for when you host family and friends or are trying to keep a close eye on little ones playing in the main level or lower-level family room while still working on preparing a weeknight meal in the kitchen.

During the day custom shades throughout allow natural light into the home while offering privacy at the same time. For additional light recessed lighting has been added in the family room while an upgraded fixture has been installed
